Subject: Offer Letter for Website & Travel Management System Development Project

Dear Mr. Yash Ramasre Bhagat,

Kadjai Travels is pleased to engage you for the design and development of its official website and travel management web application. The project is intended to improve the business's digital presence and organize customer travel enquiries and related operational information.

The proposed scope includes a responsive business website, travel service information, a fare-estimate calculator, booking enquiry submission, and an owner-facing interface for reviewing and managing booking information, subject to the features implemented and approved by the proprietor.

You are expected to carry out the work professionally, protect business and customer information, and demonstrate the working application to the proprietor for review. Project deliverables and any changes to scope should be mutually discussed and agreed.

We look forward to reviewing the project and appreciate your contribution towards the digital development of Kadjai Travels.

Sincerely,

Ramasre Bhagat
Proprietor
Kadjai Travels

Subject: Project Completion Letter – Travel Management System

To,
Mr. Yash Ramasre Bhagat

Dear Mr. Bhagat,

This is to certify that you have successfully completed the project for the design and development of the official web application for Kadjai Travels, a tourist transport and travel service business dedicated to providing comprehensive outstation journeys, airport transfers, and customer travel services.

The project involved designing and developing the web platform, implementing the required features and functionalities, integrating zero-login live vehicle trip tracking, route-based transparent fare estimation, automated duty slip billing, updating fleet service content, and ensuring proper functioning across different devices.

We appreciate your efforts and contribution towards the successful completion of this project. We wish you continued success in your future professional endeavours.

Sincerely,

Ramasre Bhagat
Proprietor
Kadjai Travels

KADJAI TRAVELS

To:
The Head of Department,
Department of Computer Science (B.Sc. CS),
Sheth L.U.J. & Sir M.V. College of Arts, Science and Commerce,
Mumbai, Maharashtra.

Date: 14 October 2026

Respected Sir/Madam,

Subject: Project Completion & Deployment Certificate

This is to certify that **Mr. Yash Ramasre Bhagat**, Roll No.: **T072**, Class: **TYBSc Computer Science**, Sheth L.U.J. & Sir M.V. College of Arts, Science and Commerce, Mumbai, has successfully designed and developed the official website and management system for **Kadjai Travels**, a tourist transport and travel service business, as part of his academic project.

Project Scope & Implemented Modules

1. Tourist Transport & Booking Operations Desk:
The web platform digitizes tourist travel requests, review progression, vehicle and commercial driver allocation, and operational trip status tracking.

2. Zero-Login Live Vehicle Trip Tracking:
The platform empowers customers to track real-time trip status, allocated driver details, and vehicle license plate using only their booking reference ID and contact number.

3. Transparent Fare Estimation Engine:
The system maintains automated transparent tariff calculations across One-Way, Round Trip, Local Rental, and Airport Transfer packages, enforcing minimum daily mileage, driver allowances, and Fastag toll estimates.

4. Automated Duty Slip Billing & Meter Logging:
The platform automatically logs vehicle starting and closing odometer readings, calculates billable distance, and generates printable A4 duty slips with itemized cost breakdowns.

5. Responsive Web Interface & Customer Portal:
The application is designed to provide a consistent, responsive experience across desktop, tablet, and mobile devices for customers and travel operations.

Project Benefits

The system modernizes Kadjai Travels' travel operations, provides real-time fare transparency for customers, eliminates manual paper trip sheets, and streamlines booking management through a centralized digital platform.

During the development of this project, Mr. Yash Ramasre Bhagat applied technical knowledge, problem-solving skills, and full-stack web development concepts (React, Express, SQLite) to develop a digital solution for the travel service.

We appreciate his efforts and wish him success in his future academic and professional career.

For KADJAI TRAVELS,

Ramasre Bhagat
Proprietor
